Commercial Insurance Waiver

Many insurance companies are denying payments to physicians for services which they (the insurance company) feel are either routine, for health screening purposes, or simply not covered as part of the benefits they provide. These same insurance companies may also deny payment for services that they feel are not "reasonable or necessary" even though your doctor feels that they are reasonable and medically necessary.

You are presenting today to receive health care services, but are unable to provide acceptable proof of insurance. If you cannot provide such proof within the timely filing period for that insurance, we will be unable to receive payment for those services from the insurer.

By signing this waiver, you accept responsibility for any charges incurred from services rendered by Wayside Health Associates that are not covered by your insurance company for reasons including but not limited to the above.

Service(s) to be provided and estimated cost:

Name of patient: _____

Signature of patient: _____

Date: _____
